PHI circular 60/23 – Briefing paper on Prescribed List benefit distribution in Australian private hospitals

To help negotiations of alternative funding arrangements for General Use Items between private hospitals and insurers.

Date published: 21 September 2023

Type: PHI circular

PHI circular type: Hospital announcement

Audience: Health sector

This [paper](#) provides updated data from the first [dataset published in August 2021](#) related to the General Miscellaneous (GM) category of the PL. It also quantifies the revised approach to data collection and analysis from the Hospital Casemix Protocol 1 (HCP1) dataset across the 2018-19, 2019-20 and 2020-21 financial years.

This paper aims to help with negotiations of alternative funding arrangements for General Use Items between private hospitals and insurers.
