# PHI 57/25 Prescribed List Excel and XML files uploaded and updated

The July 2025 Prescribed List Excel and XML files have been updated and uploaded.

**Date published:** 1 July 2025

**PHI circular type:** PHI announcement

This circular is to advise stakeholders that the Prescribed List Excel files are now available on the website.

If you requested the Excel files via email, please note there was a minor change to four Excel files to reflect that 30 billing codes in Part A and one in Part D had their codes changed (as the billing codes were reused):

- *Part A – Prescribed List*
- *Part A – New Prescribed List items*
- *Part D – General use items*
- *Part D – New General use items*

The XML file was also updated to fix over 100 billing codes that had the first character missing in the PriorBillingCode field.

The *Private Health Insurance (Medical Devices and Human Tissue Products) Amendment Rules (No. 1) 2025* were registered on the Federal Register of Legislation on 1 July 2025. The changes to the 35 billing codes will be reflected on the *Private Health Insurance (Medical Devices and Human Tissue Products) Amendment Rules (No. 2) 2025* with an effective date of 1 July 2025.
