### **PHI 22/21 Cut off dates for the November 2021 Prosthesis List**

This circular provides information on the timeframe for submitting applications to list products on the November 2021 Prosthesis List.

**Date published:**

28 April 2021

**Type:**

PHI circular

**PHI circular type:**

Prosthesis announcement

**Intended audience:**

Health sector

The [Prosthesis List: Guide to Listing and setting benefits for prostheses](#) advises that Prosthesis List applications (new, amendment, expansion or compression) can be submitted at any time before midnight on the second Sunday in May.

Consistent with this advice, applications for the November 2021 Prosthesis List should be received by the Department no later than 11:59pm on 9 May 2021.

This deadline applies to applications for products from any category and any part (Part A, Part B and Part C). Applications received on 10 May 2021, or later, will be considered for the March 2022 Prosthesis List.

To ensure timely assessment of any new applications, sponsors should ensure the application fee (\$600 per application) is paid at the time of their submission.

For the existing products listed on the Prosthesis List, sponsors are responsible for the accuracy of their Prosthesis List data to ensure the information is true and correct. Sponsors can check their billing codes on the published version of the [Prosthesis List](#) or through [PLMS](#). Any information entered on the Prosthesis List can only be changed by sponsors via submitting an application in the PLMS.

**Further dates**

Sponsors also should remember that any outstanding information to be entered on the Prostheses List regarding inclusion of the product in the Australia Register for Therapeutic Goods (ARTG), should be submitted to the Department 4 to 5 weeks before the Prostheses List is published.

Applications for duplications, deletions or transfers of sponsors should be received by the Department at least 3 weeks in advance of an expected publishing date.

The Department usually asks sponsors to verify the accuracy of the information to be entered or amended on the Prostheses List 2 weeks before Prostheses List publication date, and we plan to publish each Prostheses List no later than 2 weeks prior to its commencement.
