PHI circular

**PHI circular type:**

PHI announcement

**Intended audience:**

Health sector

### **Advice on the Prostheses List adjusted benefit amounts to come into effect 1 July 2022**

On 12 May 2022, we published the [Advice on the prostheses list adjusted benefit amounts](#).

The new benefits are the result of applying the public benchmarking work by the Independent Hospital Pricing Authority (IHPA).

This preliminary list will support stakeholders to update their systems and prepare other changes.

We will give sponsors the draft Prostheses List in June, as per practice for the regular PL updates.

That draft will contain new and amended listings and the adjusted benefit amounts effective from 1 July 2022.
