PHI 41/26 – Release of the 2026-27 post-listing review work plan

We would like to advise stakeholders of the release of the 2026-27 Annual Work Plan for post-listing reviews.

Date published: 4 June 2026

PHI circular type: Prescribed List announcement

We have released the 2026-27 post-listing review annual work plan. The work plan outlines the devices and/or product groupings scheduled for review.

Please note that the work plan is not a list of active reviews.

We will notify stakeholders of any changes to the work plan via updates to the website and through a PHI circular notification.

The work plan, including details of all scheduled reviews, is available on the [Prescribed List post-listing reviews webpage](#). In here, stakeholders can also find more information and updates on active and completed post-listing reviews.

For further information, please email prescribedlist.reviews@health.gov.au.

Please note: benefits continue to be payable during a review. Any changes to benefits, that occur as a result of the review, will apply after the review outcome is implemented.
