PHI 07/24 Surgical guides and biomodels – Updated Frequently asked questions

There has been an update version to the Surgical guides and biomodels – Condition for Prescribed List reimbursement – Frequently asked questions.

Date published: 2 February 2024

PHI circular type: Protheses announcement

Audience: Health sector

The [condition](#) for Prescribed List reimbursement of surgical guides and biomodels is now effective (1 February 2024).

We have updated the [Frequently Asked Questions \(FAQ\)](#) document to clarify stakeholder questions around, particularly around inclusion of an MBS item description.

The department will continue to assess and consider stakeholder feedback on the matter, and maintain regular dialogue with private health insurance and private hospital representatives. Any further changes resulting from the above will be reflected via an updated FAQ document.
